

CROSS-CUTTING CAPACITY DEVELOPMENT (CCCD) PROJECT

TERMS OF REFERENCE

REFERENCE NO: TOR/CCCD/EPA-2021-012

CCCD PROJECT CHIEF TECHNICAL ADVISOR (CTA)

Starting Date submission of EOI: July 30, 2021

Assignment Location: Monrovia

End Date submission of EOI: August 18, 2021

Assignment Duration: 4 MONTHS

Duty Station: Monrovia

BACKGROUND

The Environmental Protection Agency (EPA) through the United Nations Development Program (UNDP) obtained funding from the Global Environmental Facility (GEF) to support the Cross-Cutting Capacity Development (CCCD) Project for Liberia. The project will support the Government of Liberia to Strengthening National Capacities to Meet Global Environmental Obligations within the Framework of Sustainable Development Priorities. The project has four components: 1. Integrated Environmental Knowledge Management System (EKMS); 2. Enhanced institutional and technical capacities for mainstreaming; 3. Improving awareness of global environmental values; 4. Updating the National Capacity Self-Assessment (NCSA) The UNDP through the EPA as Implementing Entity (IE) intends to recruit the service of a Local Consultant, who will administer the daily affairs of the project and lead efforts in the project implementation. This project is in line with the GEF-6 CCCD Strategy objective 1, 3, and 5 which call for countries to: a) integrate global environmental needs into management information systems and monitoring, b) integrate MEA provisions into national policy, legislative, and regulatory frameworks, and c) update NCSAs, respectively. The goal of this project is for Liberia to make better decisions to meet and sustain global environmental obligations. This requires the country to have the capacity to coordinate efforts, as well as best practices for integrating global environmental priorities into planning, decision-making, and reporting processes. To this end, the objective of this project is to strengthen a targeted set of national capacities to deliver and sustain global environmental outcomes within the framework of sustainable development priorities. The project will be carried out via four linked components. Component 1: calls for the establishment of an integrated Environmental Knowledge Management System to meet global

environment and sustainable development priorities, Component 2: focuses on enhanced institutional and technical capacities to mainstream, develop, and utilize policies for implementation of the three Rio Conventions, Component 3: works to improved environmental attitudes and values for the global environment, and Component 4: is the updating of the National Capacity Self-Assessment (NCSA). The project will take an adaptive collaborative management (ACM)

The Environmental Protection Agency (EPA) through the United Nations Development Program (UNDP) obtained funding from the Global Environmental Facility (GEF) to support the Cross-Cutting Capacity Development (CCCD) Project for Liberia. The project will support the Government of Liberia to Strengthening National Capacities to Meet Global Environmental Obligations within the Framework of Sustainable Development Priorities. The project has four components:

1. Integrated Environmental Knowledge Management System (EKMS);
2. Enhanced institutional and technical capacities for mainstreaming;
3. Improving awareness of global environmental values;
4. Updating the National Capacity Self-Assessment (NCSA)

The UNDP through the EPA as Implementing Entity (IE) intends to recruit the service of a Local Consultant, who will administer the daily affairs of the project and lead efforts in the project implementation. This project is in line with the GEF-6 CCCD Strategy objective 1, 3, and 5 which call for countries to: a) integrate global environmental needs into management information systems and monitoring, b) integrate MEA provisions into national policy, legislative, and regulatory frameworks, and c) update NCSAs, respectively. The goal of this project is for Liberia to make better decisions to meet and sustain global environmental obligations. This requires the country to have the capacity to coordinate efforts, as well as best practices for integrating global environmental priorities into planning, decision-making, and reporting processes. To this end, the objective of this project is to strengthen a targeted set of national capacities to deliver and sustain global environmental outcomes within the framework of sustainable development priorities. The project will be carried out via four linked components. Component 1: calls for the establishment of an integrated Environmental Knowledge Management System to meet global environment and sustainable development priorities, Component 2: focuses on enhanced institutional and technical capacities to mainstream, develop, and utilize policies for implementation of the three Rio Conventions, Component 3: works to improved environmental attitudes and values for the global environment, and Component 4: is the updating of the National Capacity Self-Assessment (NCSA). The project will take an adaptive collaborative management (ACM) approach to implementation, which calls for stakeholders to take an early and proactive role in the mainstreaming exercises, as well as to help identify and solve unexpected implementation barriers and challenges. By taking an ACM approach, project activities and outputs can be more legitimately modified and adapted to maintain timely and

cost-effective project performance and delivery. As a National Implementation Modality (NIM) project, its management team will be seated at the EPA. Terms of Reference for the CCCD Consultant Under general supervision of the Executive Director of the EPA, as Project National Director, the CCCD Chief Technical Advisor (CTA) duties and responsibilities include:

Duties and Responsibilities
