

Why this Matters

3. For community members to take environmental issues in their own hands, local empowerment through education, research and data accessibility are implemented.

4. The Environmental Protection and Management Law of Liberia and other relevant laws are fully implemented bringing companies and individuals alike into full compliance thereby creating a safe environment for this and successive generations.

5. International Environmental Agreements including the Paris Agreement are fully implemented.

6. Green Revenues generations through carbon market and climate change trust funds that support national development are fully established and operational.

7. The Environmental courts that fast track environmental law violators accountable are established and operational.

8. Other cross-cutting issues including gender and children protection are fully integrated into environmental programs planning and implementations.

The Strategic Plan is not just a document –it is a call to action. The EPA’s roadmap outlines clear, actionable steps to address environmental challenges and create meaningful impact.

The budget of the plan is \$32,078,000. With this the Government of Liberia will contribute \$15,188,000. We are asking our partners to provide the balance of \$16,890,000. Some of the activities in the strategic plan can be supported through kind and some through monetary support. Please let us know what is convenient for your institution.

This marks the beginning of a transformative journey. Together, we can ensure a sustainable future for Liberia.

📘 Environment Protection Agency -EPA

Welcome Message

On behalf of the Environmental Protection Agency (EPA) of Liberia, we are proud to unveil the Strategic Plan for 2025-2029. This ambitious roadmap highlights our unwavering commitment to addressing critical environmental challenges while fostering sustainable development, resilience, and inclusivity.

Our vision for a greener Liberia is deeply rooted in collaboration with communities, stakeholders, and global partners. Together, we aim to transform environmental governance, preserve natural resources, and empower future generations.

Who We Are?

The EPA is the principal authority for the management of the environment. It coordinates, monitors, supervises and consults with relevant stakeholders on all activities in the protection of the environment and sustainable use of natural resources in Liberia.

What is our Vision?

To be a regulatory agency that ensures a clean, safe and healthy environment for all.

What is Our Mission?

- Working with partners to create effective environment communication, education and public awareness
- Developing laws, regulations, policies and standards
- Effectively monitoring compliance to environmental laws and policies
- Providing high quality information and advising on the state of the environment and related matters ensuring effective environmental planning and reporting.

What are Our Core Values?

Reliability,Accountability, Transparency,Excellence, Professionalism, Efficiency Respect for all, Honesty Highlights of the Strategic Plan

Theme: “Innovating for Resilience and Growth”

This Strategic Plan serves as a comprehensive roadmap for environmental management in Liberia, structured around five key pillars aimed at promoting sustainability, governance, and accountability.

Key Pillars and Strategic Outcomes (2025-2029) By December 2029:

1.Under the Governance & Management Pillar, the decision making processes including a decentralized EPA operations through functional Environmental Committees and fully functional county offices in all 15 counties are implemented.

2.For a functional EPA, modernization of infrastructure including construction of a green building to support climate actions, regional laboratories as well as staff capacity building are accomplished.
